protel for iPad

Product information

protel for iPad: Mobile hotel management

Don't let work tie you to your desk! If you are managing your hotel with protel SPE or MPE, from now on you are not reliant on your computer anymore. Our iPad App makes your hotel management accessible from anywhere you are: Go wherever you like and take protel with you.

Please, do touch!

No keyboard, no mouse - protel for iPad allows you to manage your hotel with the touch of a finger.

The clearly structured layout makes working with protel on the iPad not only a fun experience for anyone, but also offers great usability even for inexperienced users.

protel Room Plan on your iPad: Detailed information about a reservation, in this example about room 304.

protel for iPad is the first fully mobile hotel management system and the perfect solution for all who are aiming to exceed their guests' expectations in customer service. Fulfil your guests' every desire and enjoy the freedom of working where it's most convenient to you.

Hotel management to go

All front office features are available to you and your employees with protel for iPad – and more: Spare “very important” guests unnecessary waiting time and check them in while greeting them personally. Handle booking requests from anywhere and at any time. Access management reports, evaluate the latest statistics and make informed decisions, no matter where you are.

protel Reporting on the iPad:

The arrival list for the current day ready to be printed

protel Reporting on the iPad: Manager and bookkeeping reports, controlling – all at your fingertips!

Overview of a few functions and features

- Room plan: create reservations, edit room and guest information
- Room type plan: create reservations for several rooms or room types at the same time
- Retrieve rates and availability
- Guest profile search, create and edit guest profiles
- Active lists (arrival, departure, In-house, reservations)
- Reporting (hundreds of protel reports)
- Invoices

and much more ...

- ▼ protel SPE or MPE (SQL)
- ▼ native app "protel for iPad"
- ▼ protel Web Services
- ▼ License „Tablet connector“
- ▼ W-LAN (web server or UMTS)

Requirements

- ▼ The native app *protel for iPad* is available in the [Apple App Store](#).

Requirement for the use of this iPad app is an SQL-based hotel management system of protel hotelsoftware (protel SPE or MPE) with protel Web Services and a tablet connector license per iPad. Connection is established via the hotel's W-LAN or UMTS.

Further protel mobile applications

Learn more on other available mobile solutions:

- ▼ protel Cockpit: Mobile web application for hotel managers and teams: Key front office functions, the most important management reports and a survey tool. Runs on any internet-ready mobile device.
- ▼ protel Voyager: Travel management for the active (business) guest: Create and extend reservations, self-check-in/-check-out, edit guest data, use social media functions. Runs on any internet-ready mobile device.
- ▼ protel for iPhone: The little sister of the protel iPad app. Create reservations within the room plan, check availability, edit guest profiles.
